

# INSTALLATION MANUAL – SBU-200 ATM Camera Bracket

## Unpacking

Unpack carefully. This is mechanical equipment and should be handled with care. If an item appears to have been damaged in shipment, replace it properly in its carton and notify the shipper. If any items are missing, notify BroadSight Systems, Inc. The shipping carton is the safest container in which the unit may be transported. Save it for possible future use.

## Service

If the unit ever needs repair service, the customer should contact BroadSight Systems, Inc. for a return materials authorization (RMA) and shipping instructions.

## Care and Maintenance

Perform routine maintenance to keep the unit dust free.

## Model Designation

SBU-200                      ATM Camera Bracket

## Description

The ATM Camera Bracket is designed to allow a Hanwha Techwin miniature camera to be installed in a variety of ATM machines.

## Hardware Kit

None

## Tools Required

Adjustable wrench or 5/16" Nut Driver/Socket

## Certification

Camera installation should be performed by a licensed professional and conform to the National Electrical Code (NEC) and any applicable local codes.

## Installation

1. Loosen hex nut using 5/16" nut driver, socket, or adjustable wrench. Slide camera into bracket and re-tighten.
2. Loosen thumbwheels and adjust brackets as needed to orient camera in desired direction.
