

Cloud Managed Video Recorders

Compact / 1U Rack Video Recorders

The Wisenet SKY Cloud Managed Video Recorder (CMVR) stores video and acts as a gateway from your premises to the Wisenet Sky Cloud Data Center where your video can also be stored and managed by the Wisenet Sky Cloud VMS. It provides secure video storage & video streaming, intelligent bandwidth management, and monitoring of cameras.

Models range from compact wall/shelf mount, ruggedized with PoE, to rack mount enterprise options to record large numbers of cameras for long durations.

RECORDING FEATURES

- Video encrypted in transit and at rest

- Motion detection with alerts
- Map and floorplan display

SYSTEM ADMINISTRATION

- 100% browser-based; no software
- Granular user permissions
- Multi-site support
- Point and click video sharing
- Centralized management

WHAT IS THE WISENET SKY CLOUD VMS?

The Wisenet SKY Cloud VMS is a fully managed cloud video surveillance solution, delivering an end-to-end video management system that's simple to deploy and easy to use. It supports all modern browsers and works on Windows, Mac, & Linux with no plugins to install.

FULLY MOBILE

View video anytime, anywhere. The fully functional iOS and Android applications provide complete access to live and recorded video and can also be used to install, configure and manage the system.

GOT CLOUD?

Wisenet SKY provides an easy to use cloud-based, video management system. The Wisenet SKY Cloud Managed Video Recorder is installed on-site, connects to your cameras, records video locally, and then securely streams to the Wisenet SKY Cloud Data center. Off-site cloud recording can also be configured for redundancy. It's a robust, secure appliance specifically designed to overcome the demands of transmitting high-resolution video through the Internet.

COMPREHENSIVE CAMERA SUPPORT

At Hanwha Techwin we believe camera compatibility is important. Advanced SUNAPI integration ensures the best experience and a seamless experience no matter which camera you choose. Wisenet SKY CMVRs support Wisenet cameras and encoders as well as ONVIF Profile S IP cameras/encoders. For an up to date list of all compatible cameras visit www.hanwhasecurity.com/wisenet-sky-camera-compatibility-list.

WORRY FREE MANAGEMENT

All of the software in the Wisenet SKY Cloud and firmware on the CMVR is managed and updated automatically by Hanwha Techwin. The hardware is backed with a full replacement if anything ever goes wrong, all part of an active subscription.

SECURITY SIMPLIFIED

With Complete Privacy Encryption™, video is fully encrypted during transmission and at rest. The Wisenet SKY CMVR has no open ports to the Internet, eliminating security vulnerabilities commonly found in other systems and requiring no router or firewall adjustments.
